

When only the BEST will do...

Inspired by the abundance and beauty of the earth's most natural treasures, Pamella Regan-Fox established GoGoanna in 1989. GoGoanna have quickly established themselves as leading merchants of coloured gemstones and pearls. Gogoanna devote all their resources to the challenge of locating truly exceptional and unusual pieces by trading in over 20 countries. They travel extensively throughout Australia sourcing the best opals, coloured diamonds, particoloured sapphires, chrysoprase and pearl, which are then showcased on their international travels. GoGoanna's passion for the gem industry is evidenced by their ability to track down the rare and exotic. "Working in gemmology presents an opportunity to discover that special stone whether it be the lustrous

creations of the humble oyster or the fierce beauty of gemstones produced by volcanoes." enthused Pamella. From alexandrite to zircon, GoGoanna's flair for obtaining unique and unusual gems has affirmed their point of difference in the industry and affords them a dedicated following of leading international jewellery artists and designers eagerly searching for distinctive stones with extraordinary cut and colour. Goganna also cater to the discerning collector and some of their elite clients range from presidents, politicians, sultans and royalty to music moguls, film stars and sports celebrities, each vying for choice picks from GoGoanna's comprehensive array of connoisseur collector stones. Find out what all the fuss is about and visit Gogoanna at their showroom or contact them on....
